

Antivirus Service

Provide fast, simple, and highly-available antivirus protection for your Enterprise Data Cloud, delivered as a service

Storage integrated antivirus protection simplifies and scales.

With traditional enterprise antivirus, when files are requested they are first transferred over IP networks to dedicated antivirus servers for scanning. When the scan is completed, the results are transmitted back to the requestor. This deployment model delays file access, increases network traffic, requires dedicated server instances to run the antivirus engine, and requires IT organizations to manage and maintain the antivirus engine, licenses, licenses, configuration, and data.

Features & Benefits

Simple & Scalable

No extra resources to manage.
Scales with your storage.

Available

Leverages VPSA high-availability capabilities.

Fast

No incremental network delays.
No additional network traffic.

As-A-Service

Provisioned with storage.
No dedicated AV server.

By integrating the McAfee virus scanning engine directly in Virtual Private Storage Arrays, antivirus file scans are performed locally to storage, eliminating network latency, reducing network traffic, and eliminating the requirement for dedicated antivirus servers. In addition, delivering antivirus protection as a service relieves IT organizations of the effort and complexity of managing, maintaining, and supporting antivirus engines and their associated infrastructure.

Eliminate technical, operational, and financial risk.

Zadara eliminates the technical, operational, and financial risks associated with enterprise storage, by delivering industry-leading enterprise SAN, NAS and Object storage as a fully-managed service with 24/7 proactive monitoring and support, backed by a 100%-uptime guarantee, and wrapped in a pay-only-for-what-you-use model.

Transform your business with zero-risk enterprise storage.

Zadara transforms storage-related costs from a variable mix of equipment and management expenses to a predictable, on-demand, pay-per-use, elastic service that greatly simplifies planning, streamlines budgeting, and improves return on investment (ROI). Find out how zero-risk enterprise storage can help you transform your business. Call or email today.
