

Nine reasons why you'll be on

Cloud 9

with Zadara

www.zadara.com

1 Eliminate Your Risk

Zadara's pay-as-you-go model eliminates upfront CapEx costs and wasted over-provisioning.

Consumption-based Pricing

2

Regardless of how much storage you install or provision, Zadara charges only for the storage and services you use.

3 24/7 Monitoring and Support

24/7 proactive system monitoring and support help ensure access to the resources you're paying for.

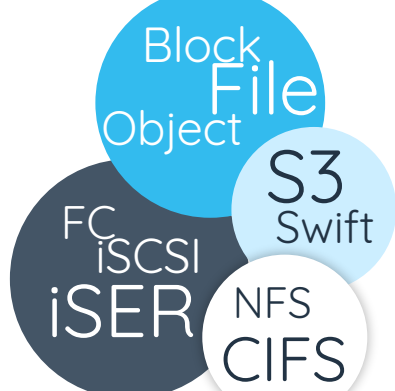

100%-Uptime Guarantee

4

Zadara provides a 100%-uptime guarantee, and our cumulative total system availability the past three years is 99.9999%.

5 Any Data Type. Any Protocol.

Zadara supports SAN (FCP-SCSI and iSCSI) and NAS (CIFS/NFS) protocols, as well as S3/Swift compatible Object Storage.

Data Privacy and Security

6

Zadara provides complete isolation of resources among tenants and the ability to separate workloads.

7 Grow or Shrink on Demand

Scale up or down as needed, seamlessly replicate from a data center to the cloud.

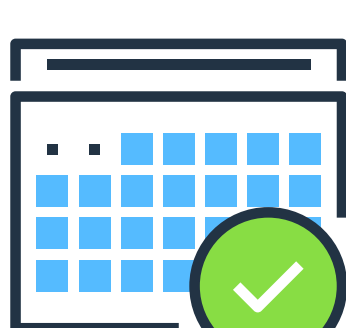

Hybrid / Multi-Cloud Capable

8

Zadara provides the ability to concurrently connect to any cloud, providing complete flexibility and data redundancy.

9 Free Upgrades. No migration.

Periodic, non-disruptive hardware and software upgrades eliminate painful data migrations.

Zero-Risk Enterprise Storage

Zadara solutions perform just like traditional enterprise storage. But, unlike legacy storage, Zadara is a fully-managed, pay-as-you-go service that effectively eliminates your financial, technical, and operational risk.
