zadara + SERVIONIX

ZADARA + SERVIONIX:

ON-PREM CYBERSECURITY CLOUD WITH 24/7 MONITORING

Deploy sovereign infrastructure with built-in threat protection, 24/7 monitoring, and elastic cost control.

THREE CORE PILLARS

TOTAL THREAT DEFENSE:

- Real-time protection via XDR, SIEM, WAF, and Email Security
- 24/7 SOC monitoring and rapid incident response
- Built-in ransomware and zero-day defense

SOVEREIGN INFRASTRUCTURE:

- On-prem edge cloud deployed near operations
- Full data residency & compliance with local regulations
- Supports secure AI inference and data processing

CLOUD-EFFICIENT OPERATIONS:

- Elastic compute & storage with pay-as-you-go pricing
- No vendor lock-in, no heavy CapEx
- Fully managed, always-on infrastructure

GOVERNMENT AGENCY

## REAL-TIME INCIDENT RESPONSE ON ZADARA CLOUD

A national agency needed to generate full incident reports within 36 hours — securely, and under strict compliance constraints.

SOLUTION

- On-prem cyber cloud deployed near operations
- Real-time analytics, advanced threat detection
- Pay-as-you-go flexibility

RESULT

Cut incident processing time by 60% while **meeting regulatory mandates** — securely and locally.

END-USER BENEFITS

- Enhanced Security & Threat Protection
- Data Sovereignty, Compliance
- Reduced Latency, Faster Operations
- AI capabilities
- Cost-Effective Cloud Model

CYBER SECURITY SERVICES

- vCISO & Security Consulting
- SOC as a Service (24/7 monitoring & response)
- XDR, SIEM & Threat Analytics
- Web Filtering & WAF
- Email & Ransomware Protection

03

INFRASTRUCTURE

- On-Premises Edge Cloud
- Elastic Storage & Compute
- Consumption-Based Pricing
- Local Data Control
- Sovereign AI

CUSTOMER OUTCOMES

DATA STAYS LOCAL, ATTACKERS STAY OUT

Sovereign deployment keeps your sensitive data within your control — and out of harm's way.

SCALE WHAT YOU NEED, PAY ONLY FOR WHAT YOU USE

No rigid contracts. No overprovisioning. Just cloud agility, on your terms.

DETECT & NEUTRALIZE THREATS IN REAL TIME

Advanced XDR, SIEM, and WAF services powered by 24/7 expert monitoring.

AI-READY, WITHOUT THE COMPLIANCE HEADACHE

Run secure AI workloads with full transparency and regulatory alignment.

zadara + SERVIONIX

CYBERSECURITY LIFECYCLE

SEE THREATS BEFORE THEY STRIKE.

Real-time detection with XDR, SIEM, and WAF — covering all traffic layers and entry points.

COMPLIANCE THAT NEVER SLEEPS.

AI-driven analytics and policy automation keep you continuously audit-ready and secure — no manual babysitting.

STEP 01

STEP 02

STEP 03

STEP 04

YOUR DATA. YOUR TERRITORY.

Deploy sovereign infrastructure on-prem or at the edge — ensuring full data residency, AI readiness, and compliance from day one.

STRIKE BACK IN REAL TIME.

24/7 SOC-led incident response neutralizes threats before they impact business or breach policy.

zadara

Fully managed cloud services: compute, networking, storage and more; designed for service providers and the modern enterprise.
